

# Rotafile<sup>®</sup>

Organisational furniture

space-saving, flexible and highly durable

# Rotafile - the talented space-savers

Rotafile rotating columns offer the maximum possible capacity in the smallest area. They offer far more space than other shelving systems.

They are also suitable for mobile use:

- ▶ **flexible** for a wide range of applications
- ▶ **heavy duty** for up to 90 kg per level

There are 3 different types of rotating columns:

- ▶ **Multifile:** the round column with individually rotating levels (see p. 6-7)
- ▶ **Compactfile:** the fully rotating round column (see p. 8-9)
- ▶ **Squarefile:** the square column (see p. 10-11)

# Multifile

## APPLICATIONS

Versatile storage not only of binders but also items (such as DVD's or CD's for example), storage containers, bottles, cans and much more. The product is extremely practical to store things from a garage or utility room, and many other items.

## BENEFITS

This flexible rotating column offers perfect, space-saving storage of all sorts of items. The level heights can be adjusted to suit requirements. Stored goods of any shape and size can be stored neatly and with ease.

## PRODUCT FEATURES

- ▶ Individually rotating height-adjustable levels
- ▶ Additional levels can be added to increase the height
- ▶ Max. load per level: 75 kg at Ø 80 cm, 90 kg at Ø 93 cm
- ▶ Sturdy 5-armed star base
- ▶ Raised edges and handles in an exclusive aluminium finish

## Ø 80 cm

Number of levels	binders max.	Height (cm)	Order no. graphite	Order no. light grey
2 levels	48	87	480402	480502
3 levels	72	124	480403	480503

5 levels	160	195	490405	490505
6 levels	192	231	490406	490506

„The flexible column for any size and format!“

... as a DVD holder in a video library

... as organisational furniture in the office

... to provide order in the basement or attic

... as a storage facility in industrial surroundings

# Compactfile

## APPLICATIONS

Storage and archiving of a wide range of utensils, from binders to magazines. It is perfect for documents and other items that can be stored in a wedge shape.

## BENEFITS

Compactfile is the perfect inexpensive alternative to conventional storage shelves because it accommodates a large amount of items, does not require a wall and only needs very little space.

## PRODUCT FEATURES

- ▶ Fully rotating column for DIN A4 binders (also available for folio formats)
- ▶ Additional levels can be added to increase the height
- ▶ Max. load per level: 75 kg at Ø 80 cm, 90 kg at Ø 93 cm
- ▶ Sturdy 5-armed star base
- ▶ Raised edges in a high-quality aluminium finish

## Ø 80 cm

Number of levels	binders max.	Height (cm)	Order no. graphite	Order no. light grey

„The sturdy archive column for work or hobby!“

... in a conference or meeting room

... the „classic“ rotating column for ring binders

... for lobbies or open space areas

... as a practical helper at schools or in public buildings

# Squarefile

„The multifunctional square column  
for an exclusive ambience!“

## APPLICATIONS

Rotating storage furniture in a slender design and extremely versatile in use: as lounge furniture, catalogue holder, display furniture for show-rooms up to a ceiling-height bookshelf.

## BENEFITS

The square column offers multifunctional accessories that a classic round column simply cannot, such as seat pads, Slatwall, brochure flaps, compartments etc.

## PRODUCT FEATURES

- ▶ Column is fully rotatable
- ▶ Additional levels can be added to increase the height
- ▶ Max. load per level: 60 kg
- ▶ Sturdy 4-armed star base
- ▶ The sides of the levels are bolted to provide **additional stability**, and fitted with 2 mm abutting edges for **long-term use**
- ▶ **Dimensions: 69 x 69 cm** (diagonal: 97 cm)

## Side length 69 cm

Number of levels	Height (cm)	Order no. graphite	Order no. maple
1 level	49	417441	-
2 levels	85	417442	417852

5 levels	190	417445	417855
6 levels	225	417446	417856

... with „Brochure flap“  
accessory for print  
media such as catalogues

... stylish at work or in a home office

... comfortable seating  
furniture in the lounge

... for libraries

# Lockfile Corner

## APPLICATIONS

Patient files, patents, personal files, accounting

## BENEFITS

Space-saving corner unit that makes full use of unused corners and protects written records against dust and unauthorised access.

## PRODUCT FEATURES

- ▶ **Corner unit with integrated rotating column**  
Multifile 80 cm (see p. 6 for further information)
- ▶ **With lockable horizontal tambour doors**  
(cylinder lock, equipable with master key)
- ▶ **With powder-coated metal base**

## Footprint 90 x 90 cm

Number of levels	Height (cm)	Order no. graphite
2 levels	92	582402
3 levels	128	582403
4 levels	178	582404
5 levels	214	582405
6 levels	250	582406

Depth (to place next to other furniture): 45 cm

# Lockfile Base

## APPLICATIONS

Patient files, patents, personal files, accounting

## BENEFITS

Wall unit that protects written records against dust and unauthorised access. Suitable as a single cabinet or as the base element for a wall unit.

## PRODUCT FEATURES

- ▶ **Wall unit with integrated rotating column**  
Multifile 80 cm (see p. 6 for further information)
- ▶ **With lockable horizontal tambour doors**  
(cylinder lock, equipable with master key)
- ▶ **With powder-coated metal base**

## Footprint 90 x 90 cm

Number of levels	Height (cm)	Order no. graphite
2 levels	92	580402
3 levels	128	580403
4 levels	178	580404
5 levels	214	580405
6 levels	250	580406

# Table-top unit

## APPLICATIONS

For files that are used regularly and need to be kept on the desk or close by.

## BENEFITS

Helps keep the workplace tidy and well-organised. Important items are always to hand. Integrates well in existing offices.

## PRODUCT FEATURES

- ▶ **Fully rotating**
- ▶ **Flat, anti-slip base** made of chipboard
- ▶ **Only available as a single level** (no further additions possible)

## Ø 80 cm

Number of levels	binders max.	Height (cm)	Order no. graphite	Order no. light grey
1 level	24	43	488401	488501

# Picco

## APPLICATIONS

Mobile shelf system for the spacious storage of binders, books, slipcases, boxes etc.

## BENEFITS

Thanks to its compact size and the fitted castors, Picco is perfect for flexible use in small offices.

## PRODUCT FEATURES

- ▶ Locking castors
- ▶ Additional level to increase to 3 levels
- ▶ Optional accessories: magnetic board set, Slatwall (see p. 16)

## Footprint 80 x 34 cm

Number of levels	binders max.	Height (cm)	Order no. graphite
2 levels	18	77	720402
Additional level	9	35	720401

# Accessories round column

## Castors

For mobile use of the rotating column, can be retrofitted, raises the column by 7 cm  
Scope of delivery: 1 set consists of 5 castors  
Note: only to be used for a max. height of 135 cm

Order no. 441050

## Orgaset

for 1 level  
Storage capacity: a maximum of 120 vertical files per level, the shelf quarter can be subdivided with four separators in order to stabilise the media being stored.

Order no. 441450

## CD Unit

for 1/4 level  
Storage capacity: a maximum of 50 CDs per CD unit, design utilising tempered spring steel in conjunction with aluminium and high-quality plastic

Order no. 441500

## Quick Shelf

Pull-out worktop fits to the rotating column; colour: graphite  
Note: only for Multifile 80 and 93

Quick Shelf for Ø 80: Order no. 488416

Quick Shelf for Ø 93: Order no. 499416

## Chrome railing

Chrome device to attach to the outer edges of the levels. So that even small items can be stored safely.  
Note: only to be used for Multifile 80

Order no. 411554

# Accessories square column

## Castors

For mobile use of the rotating column, can be retrofitted, raises the column by 7 cm.  
Scope of delivery: 1 set consists of 4 castors (two of which are lockable)  
Note: only to be used for a max. height of 135 cm

Order no. 441040

## Base cover

Acts as a cover panel for the star base.  
Material: powder-coated steel sheet.  
Height: 9.5 cm

Note: cannot be used in combination with castors

Order no. graphite: 417040

Order no. silver: 417050

## Additional level

The additional level increases the height of the column by a further level, and provides more space for binders and working materials.

Order no. graphite: 417401

Order no. maple: 417811

## Seat pad

High quality upholstered seat pad, black  
Fabric properties: 100% microfibre with antistatic finish, to Oeko-Tex standard 100, lightfast and abrasion resistant, stain and dirt repellent

Note: can only be used for Squarefile 1 level

Order no. 417041

# Accessories square column

## Compartments

Used to divide the compartment into 6 equally sized compartments (each approx. 4.5 cm)  
Can be retrofitted at any time simply by slotting in; no tools required, and no need to dismantle the column.

Order no. 411444

## Shelf

Used to divide the compartment into 2 equally sized compartments (each approx. 16 cm)  
Can be retrofitted at any time simply by slotting in; no tools required, and no need to dismantle the column.

Order no. 411441

## Slatwall

Panel made of anodised galvanised sheet steel to take up. Slatwall accessories such as hooks, brochures, trays etc.  
Is attached simply by slotting into the chosen side panel.

Order no. 411051

## Set of brochure flaps

Flaps made of anodised galvanised sheet steel turn the rotating column into a brochure or catalogue unit. Are simply hung in place as and when desired; no tools required, and no need to dismantle the column.

Scope of delivery: 1 set consists of 2 flaps

Order no. 411252

## Set Magnetic boards

Magnetic boards in powder-coated steel sheet to go on the sides of the levels (4 magnets included). Available in 6 colours.

Scope of delivery: 1 set consists of 2 magnetic boards

### Colours of magnetic boards:

 red	 blue	 black	 pink	 orange	 light green
417022	417032	417042	417072	417082	417092

# Material and finish

## ▶ METAL

The star base is made of metal, which means it is particularly sturdy.

## ▶ MELAMINE RESIN-COATED E1 CHIPBOARD

The bases and sides of all levels are made of high quality chipboard panels.

## ▶ STEEL

The steel central tube makes the rotating column extremely sturdy and durable.

## ▶ CHOICE OF COLOUR

Various finishing are available, depending on the column type: graphite, light grey and/or maple.

graphite (Multifile, Compactfile, Squarefile)

light grey (Multifile, Compactfile)

maple (Squarefile)

# Exclusive quality for long-lasting products

„As the inventor, moll has over 50 years experience in rotating columns - Rely on us!“

5 year quality guarantee\*

Blue Angel

„Geprüfte Sicherheit“ (safety tested)

## ▶ CAN BE ASSEMBLED QUICKLY AND EASILY

moll products are delivered disassembled, carefully packed in specially designed packaging with clever styrofoam components. Each part is assigned a clear position within the packaging. This is the basis for quick and easy assembly.

Each product contains detailed assembly instructions which offer an illustrated, stepbystep explanation of the assembly process in order to keep assembly time to a minimum.

## ▶ STURDY STAR BASE

The sturdy star base guarantees on each column optimum stability. Thanks to a fine height adjustment the columns can be leveled in case of uneven floors.

## ▶ EXCLUSIVE MATERIAL

Rotafile products are made of sturdy, melamine resin-coated chipboard panels. Please also refer to page 17.

## ▶ MODULAR CONSTRUCTION

Because only a system that can be extended in accordance with growing requirements is economical.

# Rotafile<sup>®</sup>

Organisational furniture

## About moll – the inventor of rotary files

The family owned company has been founded in 1925. A small joinery and cabinet shop in Gruibingen (Southern Germany) was to become the cornerstone of the industrial company that it is today.

In 1960 moll presented the office furniture scene with a rotary file that was developed by the company itself. Still today rotary files are a well-established product in office furniture.

Today moll is an Internationally leading company and is developing and producing traditionally in Germany.
